

# YAHYA WIJAYA

## Back End Developer | Java Spring Boot

+628815170498 | [yahyawijaya082@gmail.com](mailto:yahyawijaya082@gmail.com) | [Yahya Wijaya | LinkedIn](#), Tangerang 15144, Banten

Back-End Developer dedicated to writing clean, maintainable code and delivering high-quality software solutions. I have experience working on mission-critical applications where precision and reliability are key. I am driven by the challenge of optimizing backend processes and ensuring seamless data integration. I am looking to further grow my technical skills while delivering impactful results for the team and the business.

### Education Level

**University of Singaperbangsa Karawang – Karawang, Indonesia**

**Aug 2019 - Nov 2023**

**Bachelor of Computer Science**

Faculty of Computer Science; Informatics

GPA: 3.75/4.00

### Work Experiences

**PT PHINCON – Jakarta, Indonesia**

**Feb 2023 – Present**

#### *Junior Consultant*

- **System Development & Maintenance:** Collaborated within a cross-functional team to design, develop, and maintain high-performance backend services, ensuring system stability for enterprise-scale clients.
- **API Integration:** Engineered and optimized secure RESTful APIs to facilitate seamless data exchange between complex internal and external systems.
- **Performance Optimization:** Analyzed and refined existing backend logic and database queries to improve application response times and overall system efficiency.
- **Collaborative Problem Solving:** Engaged in technical discussions and code reviews to ensure code quality, while actively participating in the full Software Development Life Cycle (SDLC) from requirements analysis to deployment.
- **Client Solutioning:** Assisted in translating business requirements into technical specifications, providing effective software solutions that align with client objectives.

#### Project:

Era : June 2024 – Present  
Company : Telkomsel  
Project Name : API Services Enablement to support BAU business and Notification System Position : Developer  
Project Description : Develop and enhancement service  
Technology : Java and Golang

#### Duties & Responsibilities:

- Develop service using golang and java
- **High-Performance Service Development:** Engineered and maintained mission-critical backend services using Golang and Java to ensure seamless operational continuity for Telkomsel's business-as-usual (BAU) activities.
- **System Enhancement:** Executed complex service enhancements and feature updates, focusing on improving system throughput and reducing latency in a high-traffic production environment.
- **Service Reliability:** Monitored and troubleshoot real-time issues within the NOIS framework, delivering technical fixes to maintain 24/7 service availability.
- **Technical Integration:** Collaborated with cross-functional teams to integrate new functionalities into existing microservices architecture while maintaining strict code quality and security standards.

Era : Feb 2024 – Dec 2024  
Company : BPS  
Project Name : TIBCO License Renewal  
Position : Junior Consultant  
Project Description : Upgrade Version TIBCO Product to Lates Version

Technology : TIBCO

Duties & Responsibilities:

- Create documentation to upgrade TIBCO Enterprise Administrator
- Guiding the installation of TIBCO products
- Ensure successful installation When the BPS performs the upgrade

Era : Feb 2024 – Mar 2024  
Company : BCA  
Project Name : POC  
Position : Junior Consultant  
Project Description : Reproduce issue using TIBCO BusinessEvent and TIBCO BusinessWorks  
Technology : TIBCO

Duties & Responsibilities:

- Reproduce issue using TIBCO BusinessEvent and TIBCO BusinessWorks
- Fix issue Fraud Engine in TIBCO BusinessEvent

Era : Apr 2024 – Jun 2024  
Company : BNI  
Project Name : BNI - Pengadaan Custom Apps Siebel Data View  
Position : Backend Developer  
Project Description : Develop website using Type Script  
Technology : Type Script

Duties & Responsibilities:

- Creat API using TypeScript
- Create database view using oracle
- Support Integration API with front-end

Era : Feb 2024 – Apr 2024  
Company : Smartfren  
Project Name : L2 Local Support Smartfren  
Position : Junior Consultant  
Project Description : Handling issues that occur and also reproducing TIBCO BusinessWork 5  
Technology : TIBCO

Duties & Responsibilities:

- Make documentation for each issue raised by Smartfren.
- Create shell scripts and also log rotation for Smartfren's log archiving purposes.
- Perform issue engineering to find out the cause of the problem from the issue raised.

**PT PHINCON**

**Des 2023 – Jan 2024**

***Backend Developer Trainee***

- Developed and implemented enterprise-grade integration flows using TIBCO BusinessWorks and EMS to ensure reliable data messaging across systems.
- Built and documented RESTful APIs using Spring Boot and Spring Rest Docs, focusing on creating maintainable and scalable backend services.
- Implemented core security protocols and web services using Spring Security and Spring Web to protect and streamline internal data communications.
- Collaborated on system administration tasks using TIBCO Administrator to manage application deployment and monitoring in a development environment.

**Back End Programmer**

- Contributed to the development of internal web applications using PHP and Zend Framework, ensuring high code quality and system reliability.
- Analyzed and designed database schemas to support new application features and improve data accessibility.
- Implemented version control (Git) best practices and participated in peer code reviews to maintain technical excellence within the team.
- Integrated third-party services and authentication systems to enhance application security and functionality.

**Training and Development Experience**

---

**Binar Academy – Jakarta, Indonesia**

Feb – Jul 2022

**Back End Java**

- Successfully completed an intensive backend development program, culminating in a Final Project: Secondpedia.
- Built and deployed microservices-based applications using Spring Boot, PostgreSQL, and Message Brokers.
- Implemented Clean Code principles, Unit Testing, and CI/CD pipelines to ensure software robustness.
- Developed comprehensive API documentation using Swagger for better frontend-backend integration.

**Digital Talent Scholarship – Jakarta, Indonesia**

Mar – Jun 2023

**Java Fundamentals & Java Foundations**

- Introduction Java
- Alice 3
- Greenfoot
- Java Basics
- Program Structure
- Arrays and Exceptions
- Java Classes
- Java Software Development
- Java Data Types
- Java Method and Library Classes
- Decision Statement
- Loop Construct
- Creating Classes
- Java FX

**Link Certificate:** [Sertifikat YAHYA WIJAYA Java Fundamentals & Java Foundations.pdf](#)

**Tech Proficiency**

---

- **Programming Language:** Java, Golang, TIBCO BusinessWorks, TIBCO BusinessEvent
- **Framework:** Spring Boot
- **Database:** PostgreSQL, SQL, MySQL, Redis
- **Other Tools:** Trello, Postman, Swagger, TIBCO EMS
- **Version Control:** Git

**Soft Skill**

---

- Problem-Solving
- Critical Thinking
- Communication Skills
- Collaboration & Teamwork
- Adaptability & Willingness to Learn
- Attention to Detail
- Time Management & Prioritization
- Resilience & Patience
